"Malaria" was the subject for general discussion, and was presented by Drs. O. C. Wright, of Jarratts, and H. B. Mahood, of Emporia. Dr. A. R. Shands, of Washington, who presented a paper on "Tuberculosis of the Knee Joint," was heartily received, and brought many new ideas concerning this grave affection. Dr. Hillsman, of Richmond, delivered an able address on "Intestinal Obstruction." Dr. Hart's paper on "Dysmenorrhea" made a fine impression. Dr. R. C. dress, which was quite entertaining, gave "Some Reasons for Race Suicide."

The night session was devoted to the subject of hydrophopia, or rables, which was considered in all of its various phases by Dr. A. G. Hoen, of Richmond. No better demonstration and explanation of this terrible malady has even been given in Virginia. The speaker was at his best, and took especial pains to demonstrate the fact that rables is a disease yet not profoundly considered in its true light. "Rables cannot be cured," said the doctor, "but it can be prevented. This is an absolute fact." Dr. Hoen is doing a considerable amount of original work in rables, and is now upon the threshold of a clinical fact of the disease that will go a long way in simplifying the infection from this dread disease. Specimens of brains of dread disease. Specimens of brains of rabbits and charts in water colors were shown the doctors, and the talk of Dr. Hoen created a profound im-pression.

YOUR HOME will be healthier when you keep bottled Schlitz. The barley is food—the hops are a tonic. And the drinking of liquids flushes the system of waste.

Every doctor knows that most people drink too little. On this account, their systems become clogged with waste.

There lies the main good of watering places. They induce the drinking of water.

That is one reason why the drinking of beer is good for you. It leads you to drink more liquid than you would drink without it. And that liquid is both a food and a tonic.

The sturdiest peoples of the earth drink the most of it.

But be sure that the beer is aged, so it will not cause biliousness. And be sure it is pure.

Schlitz beer is all healthfulness.
